Suggestions for Improvement:	Alecia changed her presentation of lessons for each child she worked at with Northridge. She also was flexible during lessons and would change things up if she observed that the student wasn't understanding. She was always calm and collected with students. She was able to use a variety of instructional strategies in her practicum experience including: modeling, graphic organizers, praise/recognition, behavior plans, probing questions, progress monitoring probes, drill and practice, manipulatives, visuals, and more.
Overall Rating:	Proficient
Suggestions for Improvement:	Alecia was effecient with communicating a practicum schedule and was flexible when changes had to be made. She developed positive relationships with each of the students that she worked with and with the staff at Northridge. An area for Alecia to continue to improve and develop would be lesson planning skills. She did a wonderful job with following through on teaching lessons, but I would like to see her become confident in developing some lesson plans on her own. This will come with more practice and experience also.
Do you believe this practicum student has the knowledge, skills, and attitude required to become an effective student teacher?	Yes
